

# Biotinylated Mouse GUCY2C/Guanylyl cyclase C Protein

Cat. No. GCC-MM401B

## Description

<b>Source</b>	Recombinant Biotinylated Mouse GUCY2C/Guanylyl cyclase C Protein is expressed from HEK293 with His tag and Avi tag at the C-Terminus. It contains Val20-Met433.
<b>Accession</b>	Q3UWA6-1
<b>Molecular Weight</b>	The protein has a predicted MW of 50.01 kDa. Due to glycosylation, the protein migrates to 70-100 kDa based on Tris-Bis PAGE result.
<b>Endotoxin</b>	Less than 1EU per µg by the LAL method.
<b>Purity</b>	> 95% as determined by Tris-Bis PAGE > 90% as determined by HPLC

## Formulation and Storage

<b>Formulation</b>	Lyophilized from 0.22 µm filtered solution in PBS (pH 7.4). Normally 8% trehalose is added as protectant before lyophilization.
<b>Reconstitution</b>	Centrifuge the tube before opening. Reconstituting to a concentration more than 100 µg/ml is recommended. Dissolve the lyophilized protein in distilled water.
<b>Storage</b>	-20 to -80°C for 12 months as supplied from date of receipt. -20 to -80°C for 3-6 months in unopened state after reconstitution. 2-8°C for 2-7 days after reconstitution. Recommend to aliquot the protein into smaller quantities for optimal storage. Please minimize freeze-thaw cycles.

## Background

Guanylyl cyclase C (GUCY2C) has canonical centrality in defense of key intestinal homeostatic mechanisms, encompassing fluid and electrolyte balance, epithelial dynamics, antitumorigenesis, and intestinal barrier function. GUCY2C may represent a new target for anti-obesity pharmacotherapy.

## Assay Data

### Tris-Bis PAGE

Biotinylated Mouse GUCY2C on Tris-Bis PAGE under reduced condition. The purity is greater than 95%.

### SEC-HPLC

The purity of Biotinylated Mouse GUCY2C is greater than 90% as determined by SEC-HPLC.
