## Biotinylated Human SIRP Beta 1 Isoform 3 Protein

#### Cat. No. SRP-HM4BLB

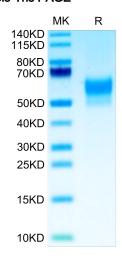

| Description             |   |
|-------------------------|---|
| Source                  | Recombinant Biotinylated Human SIRP Beta 1 Isoform 3 Protein is expressed from HEK293 with His tag and Avitag at the C-Terminus.  |
|                         | It contains Glu30-Leu371.   |
| Accession               | Q5TFQ8-1  |
| Molecular<br>Weight     | The protein has a predicted MW of 39.9 kDa. Due to glycosylation, the protein migrates to 55-68 kDa based on Bis-Tris PAGE result.  |
| Endotoxin               | Less than 0.1 EU per μg by the LAL method.  |
| Purity                  | > 95% as determined by Bis-Tris PAGE  |
|                         | > 95% as determined by HPLC   |
| Formulation and Storage |   |
| Formulation             | Lyophilized from 0.22µm filtered solution in PBS (pH 7.4). Normally 8% trehalose is added as protectant before lyophilization.  |
| Reconstitution          | Centrifuge the tube before opening. Reconstituting to a concentration more than 100 µg/ml is recommended. Dissolve the lyophilized protein in distilled water.  |
| Storage                 | -20 to -80°C for 12 months as supplied from date of receipt80°C for 3 months after reconstitution.Recommend to aliquot the protein into smaller quantities for optimal storage. Please minimize freeze-thaw cycles.   |
| Background              |   |
|                         | Signal regulatory protein β1 (SIRPB1) is a signal regulatory protein member of the immunoglobulin superfamily and is capable of modulating receptor tyrosine kinase-coupled signaling. Copy number variations at the SIRPB1 locus were previously reported to associate with prostate cancer aggressiveness in patients.SIRPB1 gene |

significantly suppressed cell growth in colony formation assays and cell mobility.

amplification and overexpression were detected in prostate cancer specimens. The knockdown of SIRPB1

## Assay Data

### **Bis-Tris PAGE**

Biotinylated Human SIRP Beta 1 Isoform 3 on Bis-Tris PAGE under reduced condition. The purity is greater than 95%.

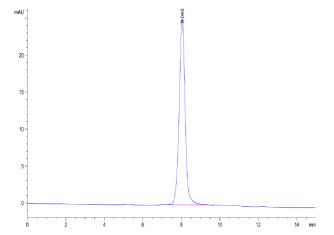

SEC-HPLC

# Biotinylated Human SIRP Beta 1 Isoform 3 Protein

Cat. No. SRP-HM4BLB

## **Assay Data**

The purity of Biotinylated Human SIRP Beta 1 Isoform 3 is greater than 95% as determined by SEC-HPLC.
