

# Ferret TNF alpha Protein

Cat. No. TNF-FE00A

## Description

<b>Source</b>	Recombinant Ferret TNF alpha Protein is expressed from E.coli without tag. It contains Val77-Leu233.
<b>Accession</b>	A3FBF1
<b>Molecular Weight</b>	The protein has a predicted MW of 17.21 kDa same as Tris-Bis PAGE result.
<b>Endotoxin</b>	Less than 1EU per µg by the LAL method.
<b>Purity</b>	> 95% as determined by Tris-Bis PAGE > 95% as determined by HPLC

## Formulation and Storage

<b>Formulation</b>	Lyophilized from 0.22 µm filtered solution in PBS (pH 7.4). Normally 8% trehalose is added as protectant before lyophilization.
<b>Reconstitution</b>	Centrifuge the tube before opening. Reconstituting to a concentration more than 100 µg/ml is recommended. Dissolve the lyophilized protein in distilled water.
<b>Storage</b>	-20 to -80°C for 12 months as supplied from date of receipt. -20 to -80°C for 3-6 months in unopened state after reconstitution. 2-8°C for 2-7 days after reconstitution. Recommend to aliquot the protein into smaller quantities for optimal storage. Please minimize freeze-thaw cycles.

## Background

Tumor necrosis factor alpha (TNF-alpha), also known as cachectin and TNFSF2, is the prototypic ligand of the TNF superfamily. It is a pleiotropic molecule that plays a central role in inflammation, immune system development, apoptosis, and lipid metabolism. Cytokine that binds to TNFRSF1A/TNFR1 and TNFRSF1B/TNFR2. It is mainly secreted by macrophages and can induce cell death of certain tumor cell lines. It is potent pyrogen causing fever by direct action or by stimulation of interleukin-1 secretion and is implicated in the induction of cachexia, Under certain conditions it can stimulate cell proliferation and induce cell differentiation.

## Assay Data

### Tris-Bis PAGE

Ferret TNF alpha on Tris-Bis PAGE under reduced condition. The purity is greater than 95%.

### SEC-HPLC

Assay Data

The purity of Ferret TNF alpha is greater than 95% as determined by SEC-HPLC.

ELISA Data

**Ferret TNF-alpha, No Tag ELISA**

0.05µg Ferret TNF-alpha, No Tag Per Well

Immobilized Ferret TNF-alpha, No Tag at 0.5µg/ml (100µl/well) on the plate. Dose response curve for Human TNFR2, hFc Tag with the EC50 of 14.5ng/ml determined by ELISA.
